**Subject:** RE: Siltronic - Monthly Progress Report (for January 2012)  
**Date:** 02/16/2012 11:40 AM

---

Good morning James.

DEQ reviewed the monthly progress report for January 2012 and acknowledge the attached spreadsheets were updated as we requested on January 27, 2012.

Based on our review of the water level measurements and soil vapor sampling spreadsheets:

- The water level measurements for performance monitoring well WS-41-91 should be added to the spreadsheet for completeness; and

- DEQ understands the "CDA Vent" and "CFB Vent" referenced in the soil vapor sampling spreadsheet refer to: 1) the vent for the piping connecting Injection Zone B-1 and Injection Zone A (CDA Vent); and 2) the vent for the piping connecting Injection Zone B-2 and Injection Zone C (CFB Vent).

DEQ requests the water level measurements for WS-41-91 and confirmation of our understandings regarding the soil vapor spreadsheet be confirmed in a reply to this e-mail. In addition, future versions of the spreadsheets should provide this information.

Please contact me with questions regarding this e-mail.
